APPENDIX

United States Code
Title 49

§1. Regulation in general; car service; alteration of line—*Extension or abandonment of lines; certificate required; contracts for joint use of spurs, switches, etc.*

(18) No carrier by railroad subject to this chapter shall undertake the extension of its line of railroad, or the construction of a new line of railroad, or shall acquire or operate any line of railroad, or extension thereof, or shall engage in transportation under this chapter over or by means of such additional or extended line of railroad, unless and until there shall first have been obtained from the commission a certificate that the present or future public convenience and necessity require or will require the construction, or operation, or construction and operation, of such additional or extended line of railroad, and no carrier by railroad subject to this chapter shall abandon all or any portion of a line of railroad, or the operation thereof, unless and until there shall first have been obtained from the commission a certificate that the present or future public convenience and necessity permit of such abandonment. Nothing in this paragraph or in section 5 shall be considered to prohibit the making of contracts between carriers by railroad subject to this chapter, without the approval of the Commission, for the joint ownership or joint use of spur, industrial, team, switching, or side tracks. As amended June 19, 1934, c. 652, § 602 (b), 48 Stat. 1102; Aug. 9, 1935, c. 498, § 1, 49 Stat. 543; Sept. 18, 1940, c. 722, Title I, §§ 2, 3 (a,b), 4, 54 Stat. 899, 900, 901; June 24, 1948, c. 622, 62 Stat. 602; Aug. 2, 1949, c. 379, § 1, 63 Stat. 485.

(19) *Application for certificate of commission; notice and hearing.* The application for and issuance of any such certificate shall be under such rules and regulations as to hearings and other matters as the commission may from time to time prescribe, and the provisions of this chapter shall apply to all such proceedings. Upon receipt of any application for such certificate the commission shall cause notice thereof to be given to and a copy filed with the governor of each State

in which such additional or extended line of railroad is proposed to be constructed or operated, or all or any portion of a line of railroad, or the operation thereof, is proposed to be abandoned, with the right to be heard as hereinafter provided with respect to the hearing of complaints or the issuance of securities; and said notice shall also be published for three consecutive weeks in some newspaper of general circulation in each county in or through which said line of railroad is constructed or operates.

(20) *Issuance of certificate by commission; unlawful extension or abandonment of lines.* The commission shall have power to issue such certificate as prayed for, or to refuse to issue it, or to issue it for a portion or portions of a line of railroad, or extension thereof described in the application, or for the partial exercise only of such right of privilege, and may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require. From and after issuance of such certificate, and not before, the carrier by railroad may, without securing approval other than such certificate, comply with the terms and conditions contained in or attached to the issuance of such certificate and proceed with the construction, operation, or abandonment covered thereby. Any construction, operation, or abandonment contrary to the provisions of this paragraph or of paragraph (18) or (19) of this section may be enjoined by any court of competent jurisdiction at the suit of the United States, the commission, any commission or regulating body of the State or States affected, or any party in interest; and any carrier which, or any director, officer, receiver, operating trustee, lessee, agent, or person, acting for or employed by such carrier, who knowingly authorizies, consents to, or permits any violation of the provisions of this paragraph or of paragraph (18) of this section, shall upon conviction thereof be punished by a fine of not more than $5,000 or by imprisonment for not more than three years, or both.

(21) *Power of commission to require adequate facilities or extension of line; penalty.* The commission may, after hearing, in a proceeding upon complaint or upon its own initiative without complaint, authorize or require by order any

carrier by railroad subject to this chapter, party to such proceeding, to provide itself with safe and adequate facilities for performing as a common carrier its car service as that term is used in this chapter, and to extend its line or lines: *Provided*, That no such authorization or order shall be made unless the commission finds, as to such extension, that it is reasonably required in the interest of public convenience and necessity, or as to such extension or facilities that the expense involved therein will not impair the ability of the carrier to perform its duty to the public. Any carrier subject to this chapter which refuses or neglects to comply with any order of the commission made in pursuance of this paragraph shall be liable to a penalty of $100 for each day during which such refusal or neglect continues, which shall accrue to the United States and may be recovered in a civil action brought by the United States.

§3. Preferences; interchange of traffic; terminal facilities—*Terminal facilities; use of and compensation for.*

(5) [Formerly (4)] If the commission finds it to be in the public interest and to be practicable, without substantially impairing the ability of a common carrier by railroad owning or entitled to the enjoyment of terminal facilities to handle its own business, it shall have power by order to require the use of any such terminal facilities, including main-line track or tracks for a reasonable distance outside of such terminal, of any common carrier by railroad, by another such carrier or other such carriers, on such terms and for such compensation as the carriers affected may agree upon, or, in the event of a failure to agree, as the commission may fix as just and reasonable for the use so required, to be ascertained on the principle controlling compensation in condemnation proceedings. Such compensation shall be paid or adequately secured before the enjoyment of the use may be commenced. If under this paragraph the use of such terminal facilities of any carrier is required to be given to another carrier or other carriers, and the carrier whose terminal facilities are required to be so used is not satisfied with the terms fixed for such use, or if the amount of compensation so fixed is not duly and promptly paid, the carrier whose terminal facilities have

thus been required to be given to another carrier or other carriers shall be entitled to recover, by suit or action against such other carrier or carriers, proper damages for any injuries sustained by it as the result of compliance with such requirement, or just compensation for such use, or both, as the case may be.

§5. Combinations and consolidations of carriers—

Unifications, mergers, and acquisitions of control

(2) (a) It shall be lawful, with the approval and authorization of the Commission, as provided in subdivision (b)—

(i) for two or more carriers to consolidate or merge their properties or franchises, or any part thereof, into one corporation for the ownership, management, and operation of the properties theretofore in separate ownership; or for any carrier, or two or more carriers jointly, to purchase, lease, or contract to operate the properties, or any part thereof, of another; or for any carrier, or two or more carriers jointly, to acquire control of another through ownership of its stock or otherwise; or for a person which is not a carrier to acquire control of two or more carriers through ownership of their stock or otherwise; or for a person which is not a carrier and which has control of one or more carriers to acquire control of another carrier through ownership of its stock or otherwise; or

(ii) for a carrier by railroad to acquire trackage rights over, or joint ownership in or joint use of, any railroad line or lines owned or operated by any other such carrier, and terminals incidental thereto.

(b) Whenever a transaction is proposed under subparagraph (a), the carrier or carriers or person seeking authority therefor shall present an application to the Commission, and thereupon the Commission shall notify the Governor of each State in which any part of the properties of the carriers involved in the proposed transaction is situated, and also such carriers and the applicant or applicants (and, in case carriers by motor vehicle are involved, the persons specified in section 305 (e), and shall afford reasonable opportunity for interested

parties to be heard. If the Commission shall consider it necessary in order to determine whether the findings specified below may properly be made, it shall set said application for public hearing; and a public hearing shall be held in all cases where carriers by railroad are involved unless the Commission determines that a public hearing is not necessary in the public interest. If the Commission finds that, subject to such terms and conditions and such modifications as it shall find to be just and reasonable, the proposed transaction is within the scope of subparagraph (a) and will be consistent with the public interest, it shall enter an order approving and authorizing such transaction, upon the terms and conditions, and with the modifications, so found to be just and reasonable: *Provided*, That if a carrier by railroad subject to this chapter, or any person which is controlled by such a carrier, or affiliated therewith within the meaning of paragraph (6), is an applicant in the case of any such proposed transaction involving a motor carrier, the Commission shall not enter such an order unless it finds that the transaction proposed will be consistent with the public interest and will enable such carrier to use service by motor vehicle to public advantage in its operations and will not unduly restrain competition.

(c) In passing upon any proposed transaction under the provisions of this paragraph (2), the Commission shall give weight to the following considerations, among others: (1) The effect of the proposed transaction upon adequate transportation service to the public; (2) the effect upon the public interest of the inclusion, or failure to include, other railroads in the territory involved in the proposed transaction; (3) the total fixed charges resulting from the proposed transaction; and (4) the interest of the carrier employees affected.

(d) The Commission shall have authority in the case of a proposed transaction under this parabraph (2) involving a railroad or railroads, as a prerequisite to its approval of the proposed transaction, to require, upon equitable terms, the inclusion of another railroad or other railroads in the territory involved, upon petition by such railroad or railroads requesting such inclusion, and upon a finding that such inclusion is consistent with the public interest.

(e) No transaction which contemplates a guaranty or assumption of payment of dividends or of fixed charges, shall be approved by the Commission under this paragraph (2) except upon a specific finding by the Commission that such guaranty or assumption is not inconsistent with the public interest. No transaction shall be approved under this paragraph (2) which will result in an increase of total fixed charges, except upon a specific finding by the Commission that such increase would not be contrary to public interest.

(f) As a condition of its approval, under this paragraph (2), of any transaction involving a carrier or carriers by railroad subject to the provisions of this chapter, the Commission shall require a fair and equitable arrangement to protect the interests of the railroad employees affected. In its order of approval the Commission shall include terms and conditions providing that during the period of four years from the effective date of such order such transaction will not result in employees of the carrier or carriers by railroad affected by such order being in a worse position with respect to their employment, except that the protection afforded to any employee pursuant to this sentence shall not be required to continue for a longer period, following the effective date of such order, than the period during which such employee was in the employ of such carrier or carriers prior to the effective date of such order. Notwithstanding any other provisions of this chapter and chapters 8 and 12 of this title, an agreement pertaining to the protection of the interests of said employees may hereafter be entered into by any carrier or carriers by railroad and the duly authorized representative or representatives of its or their employees.

Control effected by other than prescribed methods

(4) It shall be unlawful for any person, except as provided in paragraph (2), to enter into any transaction within the scope of subparagraph (a) thereof, or to accomplish or effectuate, or to participate in accomplishing or effectuating, the control or management in a common interest of any two or more carriers, however such result is attained, whether directly or indirectly, by use of common directors, officers, or stock-

holders, a holding or investment company or companies, a voting trust or trusts, or in any other manner whatsoever. It shall be unlawful to continue to maintain control or management accomplished or effectuated after the enactment of this amendatory paragraph and in violation of its provisions. As used in this paragraph and paragraph 5), the words "control or management" shall be construed to include the power to exercise control or management.
